Mar. 2020

EXPERIENCE

Mern Stack Trainee and Internship

Zeetron Network Private Limited

June 2024 – July 2024

Jaipur

- Developed a REST API using Fast API and PostgreSQL to store data from learning management systems.
- Acquired hands-on experience in MERN Stack technologies (MongoDB, Express.js, React.js, Node.js) and contributed to real-world projects during the training and internship.

full Stack Development Trainee

WsCube Tech

May 2023 – July 2024

Jodhpur

- Developed a REST API using Fast API and MongoDB to store data from learning management systems.
- Developed a full-stack web application using MongoDB, Node Js, express Js, React, PostgreSQL and analyze GitHub data.
- Developed a full-stack web application using MERN stack like React, node Js, Express and analyze GitHub data.

PROJECTS

Airbnb: Connecting Travelers with Unique Stays | Web Platform, Marketplace, User Experience

- Developed a platform that connects travelers with hosts, offering diverse accommodations and local experiences, enabling hosts to monetize their spaces while promoting community-driven tourism.
- Implemented secure payment processing, user authentication, and real-time booking updates to enhance the user experience, ensuring a seamless and reliable reservation process for both travelers and hosts.
- Designed a user-friendly interface with personalized recommendations, customer reviews, and flexible cancellation policies, allowing for a more tailored and engaging travel experience.

Hotel Management System | MERN Stack, Web Application, Booking System

- Developed a hotel management system using the MERN stack, enabling seamless room booking, customer management, and payment processing for an efficient hospitality experience.
- Implemented secure authentication, real-time updates, and an intuitive admin dashboard for managing reservations, room availability, and customer details effectively.
- Designed a user-friendly interface with automated email notifications for booking confirmations, ensuring a smooth and reliable experience for both customers and hotel staff.

Netflix Clone: User Interface | Frontend Development, Streaming Platform

- Developed a Netflix-inspired user interface using HTML, CSS, JavaScript, and Tailwind CSS, replicating the streaming platform's layout and responsiveness.
- Implemented a homepage displaying trending movies and TV shows, dynamic search functionality, and category-based content browsing for an enhanced user experience.
- Designed interactive elements with hover effects and smooth transitions, ensuring a visually appealing, fully responsive interface optimized for both desktop and mobile users.

SKILLS

Languages: HTML, CSS, JavaScript, SQL (PostgreSQL), Java, Python

Frameworks & Technologies: MERN Stack(MongoDB, Express.js, React.js, Node.js), Bootstrap, TailwindCSS

Developer Tools: Git, GitHub, VS Code

Soft Skills: Campus Requirement Training, and Problem-Solving

CERTIFICATIONS

- MERN Stack Trainee and Internship from **Zeetron Network Private Limited, Jaipur**
- Software Testing Techniques from **Infosys Springboard**
- Full Stack Development Trainee from **WsCube Tech, Jodhpur**
- Ethics in Engineering Practice from **Nptel**
